eEducation

eStudent

TUCN eCAMPUS

eResearch

eAdministration

Co-funded by the
Erasmus+ Programme
of the European Union

LOVE.DIST@NCE

eLearning – eCampus TUCN

- use of a single eLearning platform (LMS)

- digital content

- digitization of all educational processes

LOVE.DIST@NCE

eStudent – eCampus TUCN

- eAdmission (not only in special conditions)

- eStudentCard,

- eLibrary,

- eSecretariat,

- eAccomodation,

LOVE.DIST@NCE

eResearch – eCampus TUCN

- eManagement,

- Collecting and centralizing research results

- digitization of research processes,

LOVE.DIST@NCE

eAdministartion – eCampus TUCN

- increase the number of digital processes @ the eRegistry Office,

- use digital signatures at all hierarchical levels
(not only by executives)
- administration eProcesses

LOVE.DIST@NCE

The ToT eCampus project - objectives

- provide an integrated learning solution and assessment mechanisms supported by a unique eLearning/LMS platform

- continuous training of UTCN staff in the field of modern educational technology use

- new digital educational content

- promoting academic ethics in the creation of digital content

The ToT eCampus project – target group

- Project proposal (Feb 2020) – 50 teachers
- registration requests (Aug 2020) – 193 teachers (20%)

LOVE.DIST@NCE

The ToT eCampus project – tutoring

- 2 tutors – ELECTRICAL ENGINEERING PROFILE

- 2 tutors – MECHANICAL ENGINEERING PROFILE

- 1 tutor – CIVIL ENGINEERING PROFILE

- Support from the eCampus team

Section 2

SECȚIUNEA II - IDENTIFICARE ȘI DESCRIERE A UNUI FLUX DE AUTOMATIZARE PROCES

a. Pornind de la introducerea MS Power Automate & Flow și exemplificarea unor fluxuri de automatizare pentru diverse scenarii (M2-M3-M4), se va propune un flux de automatizare pe care l-ați considera necesar/util În optimizarea activității academice
b. Se pot considera: fluxuri de optimizare a procesului de predare - învățare, fluxuri de automatizare a organizării clasei, fluxuri de automatizare administrativă (ce ar completa registratura electronică), fluxuri de automatizare raportare cercetare (etc)

2. FLUX DE AUTOMATIZARE *

ETAPA 2 - crearea materialelor digitale

Etapa a 2-a din cadrul programului de formare - Tehnologii educaționale și instrumente IT&C suport pentru învățământul universitar - CNFIS-FDI-2020-0064, se va finaliza prin crearea materialelelor digitale. Astfel, fiecare participant la programul de formare va încărca câte un document PDF al cărui conținut este specificat în dreptul fiecărei întrebări.

TERMEN completare - 7 decembrie 2020

1. Vă rugăm să încărcați un document PDF care prezintă structura unui Team pentru una dintre disciplinele predate.

   Documentul va conține:
   1. Titlul TEAM-ului pentru care s-a creat materialul
   2. Link-ul spre TEAM-ul disciplinei
   3. o singură captură de ecran având canalul GENERAL selectat
   4. o scurtă descriere (poate fi sub formă tabelară) a rolului fiecărui canal

   IMPORTANT! - NU se vor face capturi de ecran care pot să conțină date care sunt sub incidența legislației protecției datelor cu caracter personal (de ex. poze cu studenți, adrese de e-mail, etc.) *

   ↑ Upload file

   File number limit: 1   Single file size limit: 10MB   Allowed file types: PDF

Conclusions

- education, research, administration processes all affected by digitalization
- use (as much as possible) single sign on for all applications

- application integration
